

CURRENT RESIDENTIAL WATER/SEWER RATE COMPARISON

Following is a comparison of residential (inside City) water/sewer billings for Metro Jackson cities as of **July 2023 or as noted**, assumes residential water usage of **5,400 gallons per month**.

Jackson (June 2023) (No Regional Charge)

(Service Charge \$11.55) + (Water \$3.85/ccf or \$5.15/1,000)
+ (Sewer \$5.36/ccf or \$7.17/1,000) **\$78.08**

Notes: Jackson does not include the Service charge if usage is less than 300 CF (2,244 gallons). Jackson has a "*summer sewer credit*" covering 5 months per year and is given to any residential customer that uses more than 300 CF/month. This is costing the City probably more than \$0.5M per year. This sewer credit should not apply until usage is 1600 CF (12,000±) or more.

Brandon (Current Rate June 2023)

(Flat Charge \$21.38) + (Water \$2.29/1,000) + (Local Sewer \$3.64/1000)
+ (Regional Sewer \$6.40/1,000) **\$87.97**
